## Corey Johnson

Corey Johnson works on the Center of Excellence team as a Technical Training Lead Analyst. Some of his responsibilities include onboarding, creating content, and supporting compliance and quality. Everything that Corey does, he does with a passion for learning and an interest in people. Corey believes in delivering training that makes a difference. His favorite part of his work is having the ability to impact the team in a positive way and receiving feedback that an employee's learning experience was one of the best. When asked how he represents Caring for those who care®, Corey responded, "This role, when done effectively, has a direct impact on improving an individual's performance or gaining new skills. When our teams are performing at their best, that translates into improved quality, increased productivity, and reduced errors. All of which strengthens our relationships with our suppliers and customers."

Corey and the rest of our team look forward to providing personalized innovations to assist your practice.
